THE MISSION

[What is Sidewalk Sale?](#)

Sidewalk Sale is a culmination of reuse and community connectedness in an app. Sidewalk Sale aims to reduce waste, keep household costs low, and foster community intimacy through the exchange of goods. We believe that any given artifact has the capacity to live many lives and affect the lives of those it belongs to. The platform gives users the ability to quickly and effortlessly browse used furniture, decor, clothing, and anything else up-for-grabs in their neighborhood and to list their own items which are ready for a new life for free or at a low cost. New York City's urban landscape is perpetually dimpled with roadside offerings. Whether it be apartment movers, deep cleaners, or aesthetic shifters, items end up on the sidewalk, and Sidewalk Sale is working to keep them out of the trash and in homes that need them.

LOGOTYPE

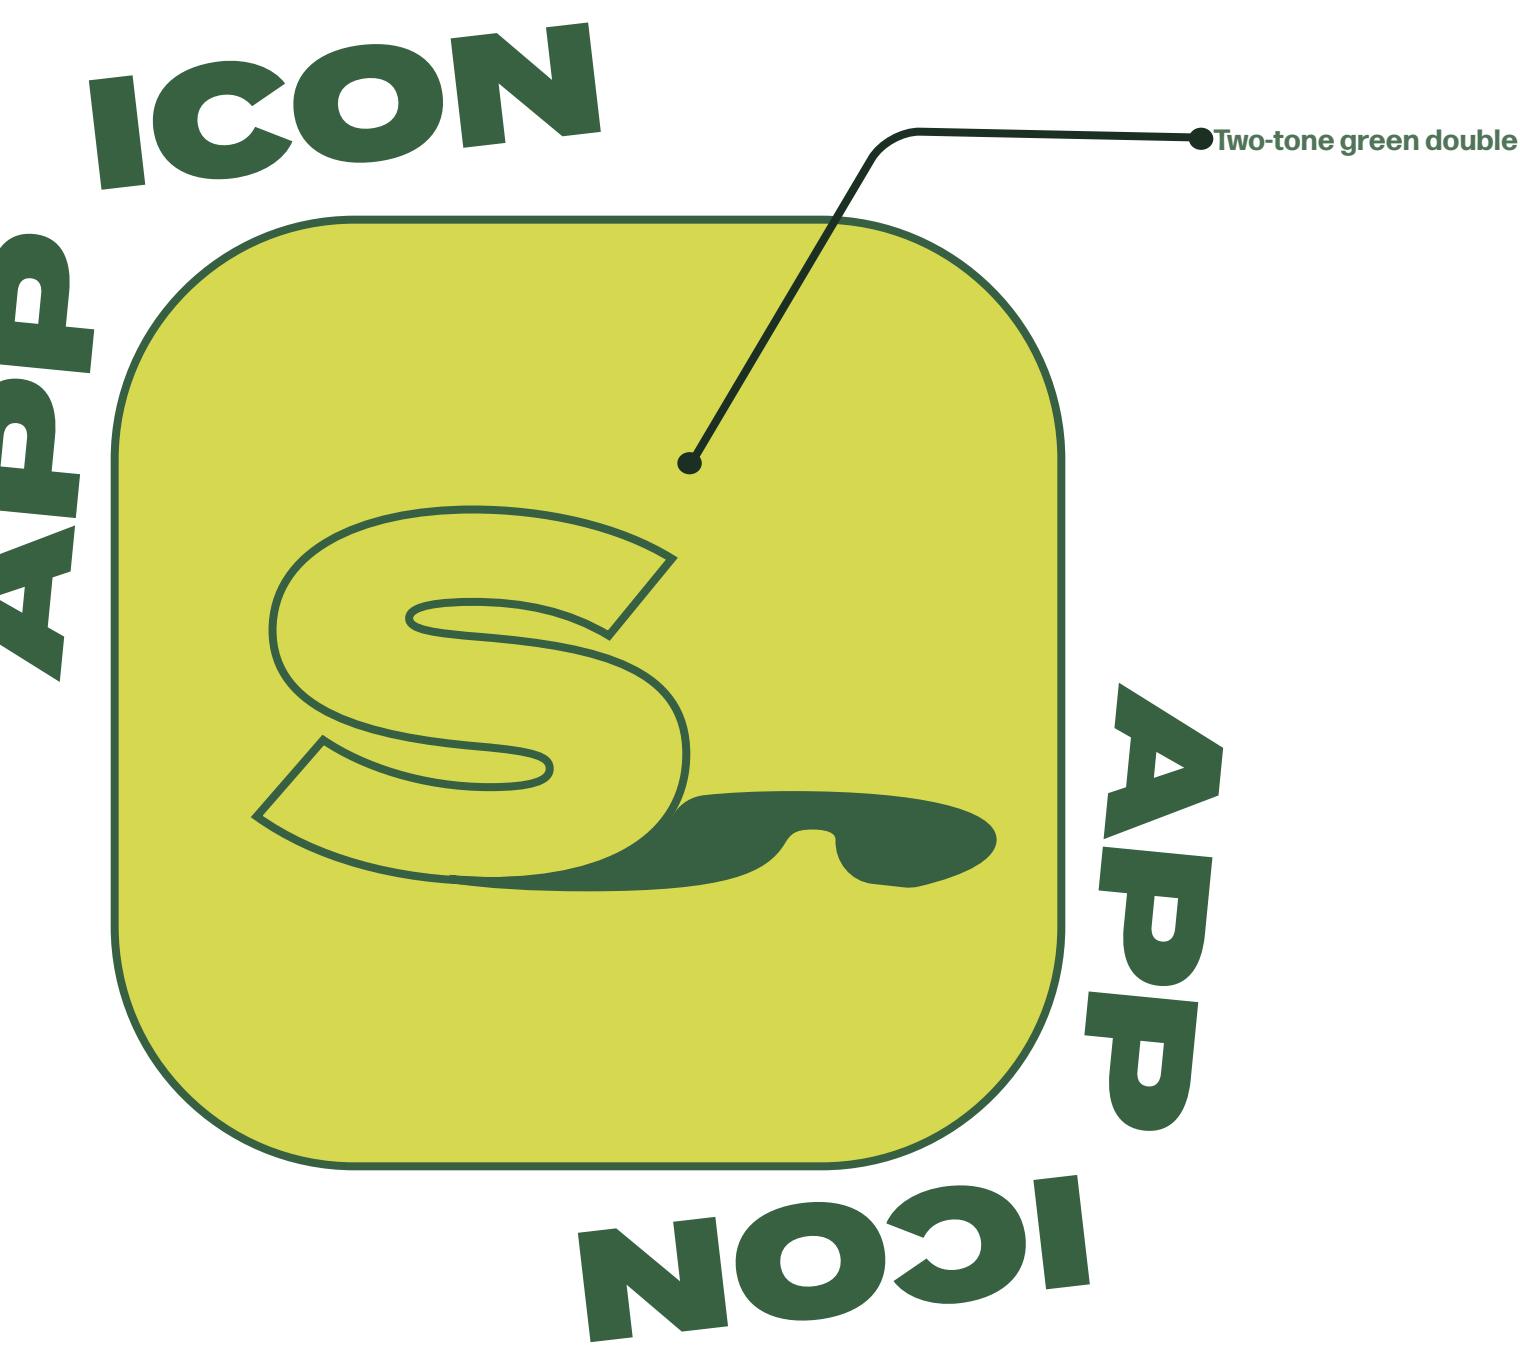

The Sidewalk Sale logo

4

The Sidewalk Sale logo has a sense of excitement and understanding. The bold, high-contrast color palette and the warped type asks the user to embrace disorder with an open mind,

NAME

The name Sidewalk Sale immediately conjures an image of an assortment of junk piled on the curb in front of an apartment building or home being sold for cheap. The app aims to bring this pile of junk to mobile devices and neighbors in need.

5

TYPOGRAPHY

6

Primary Typeface: Forma DJR Micro

Forma DJR Micro is the typeface used in the majority of text within the app. It is a sans serif, easily legible and playful font that has a more modern vibe. This typeface is dynamic and welcoming and invites the user in.

Secondary Typeface: Termina

Termina is used primarily in the logotype and for major headers like page titles and user listings. It is quite a bold font and very to the point in its expression of meaning. There is a graphic cartoonish quality to the type without it being overtly decorative or distracting.

Typestyles

Typestyles consist of headers, subheads and paragraph styles

Headers

Typeface: Termina
Font Weight: Black
To be used for user names, item listing titles, logotype, page titles.

Subheads

Typeface: Forma DJR Micro
Font Weight: Bold
To be used for buttons like message, list item, buy now, etc.

Paragraph

Typeface: Forma DJR Micro
Font Weight: Regular
To be used for item descriptions, user bios, messages sent between users,

Accent

Typeface: Forma DJR Micro
Font Weight: Medium Italic
To be used for item price listing, fine print copy.

NAVIGATION ICONS & MENUS

Taskbar icons:

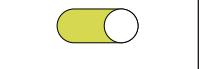

Other user interface icons:

The most useful menu in Sidewalk Sale is the taskbar at the bottom of the screen which will always be accessible within the app. This menu includes icons for the user feed/home page, the map page, the user's liked items, the messages panel, and the user profile. Within the user profile, more specific menus like settings and preferences can be found by clicking the hamburger menu .
